RESPONSIBLE SOURCING

BENCHMARK ESG™ | Gensuite®

Why Benchmark for Responsible Sourcing

Benchmark Responsible Sourcing software enhances client-supplier relationships to promote responsible sourcing practices. Assess supplier conformance with Environmental, Health & Safety, Social Responsibility, and Sustainability expectations within the global supply chain and prevent business disruptions.

Key Capabilities

- Create an inventory of suppliers based on geography, risk priority and responsible sourcing program requirements
- Establish supplier profiles including geographic information, product information, performance and compliance history, key contacts, etc.
- Customize and deploy audit protocols and schedule supplier audits consistent with program requirements—delegate audits and enable email notifications
- Use Gensuite Mobile technology to complete audits and upload/communicate findings real-time
- Assess and audit suppliers across multiple dimensions, including labor, EH&S, social responsibility and other customizable criteria
- Track and trend audit findings and corrective actions to closure
- Generate custom Key Performance Indicator (KPI) reports including supplier audits against key program requirements and a custom risk scoring model
- Engage suppliers via Supplier Portal for key compliance and stakeholder reporting priorities such as Conflict Minerals, Modern Slavery, Supplier Sustainability, and more using industry standard reporting templates
