

Comprehensive & Sustainable Answer to Stewardship

# Benchmark ESG™ Product Stewardship & Responsible Sourcing

**P**roduct regulatory compliance obligations (REACH, RoHS, Prop 65, & SCIP) and demands for product information from customers continue to proliferate globally. In addition, organizations also recognize the market advantage to product and supply chain sustainability commitments and the need for cross-functional collaboration and robust and integrated IT systems.

Benchmark Product Stewardship and Responsible Sourcing offers an integrated, turnkey software solution to address product compliance, supply chain sustainability, and broader stewardship priorities. Using this fully configurable and customizable platform, organizations can centralize and automate upstream supplier engagement and data collection to better inform key decision making across product design, production, and market introduction.
